

S SERIES (Indoor, Stepped insert)

S SERIES Metal housing models

Straight plugs

TFA

TFA

Fixed sockets

ZRA

ZRD

Free sockets

DCA

Fixed socket

- ① outer shell
- ② earthing crown
- ③ retaining ring
- ④ hexagonal nut
- ⑤ locking washer
- ⑥ insulator
- ⑦ male contact
- ⑧ female contact

Straight plug

- ① outer shell
- ② latch sleeve
- ③ collet nut
- ④ centre-piece
- ⑤ insulator
- ⑥ male contact
- ⑦ female contact
- ⑧ collet

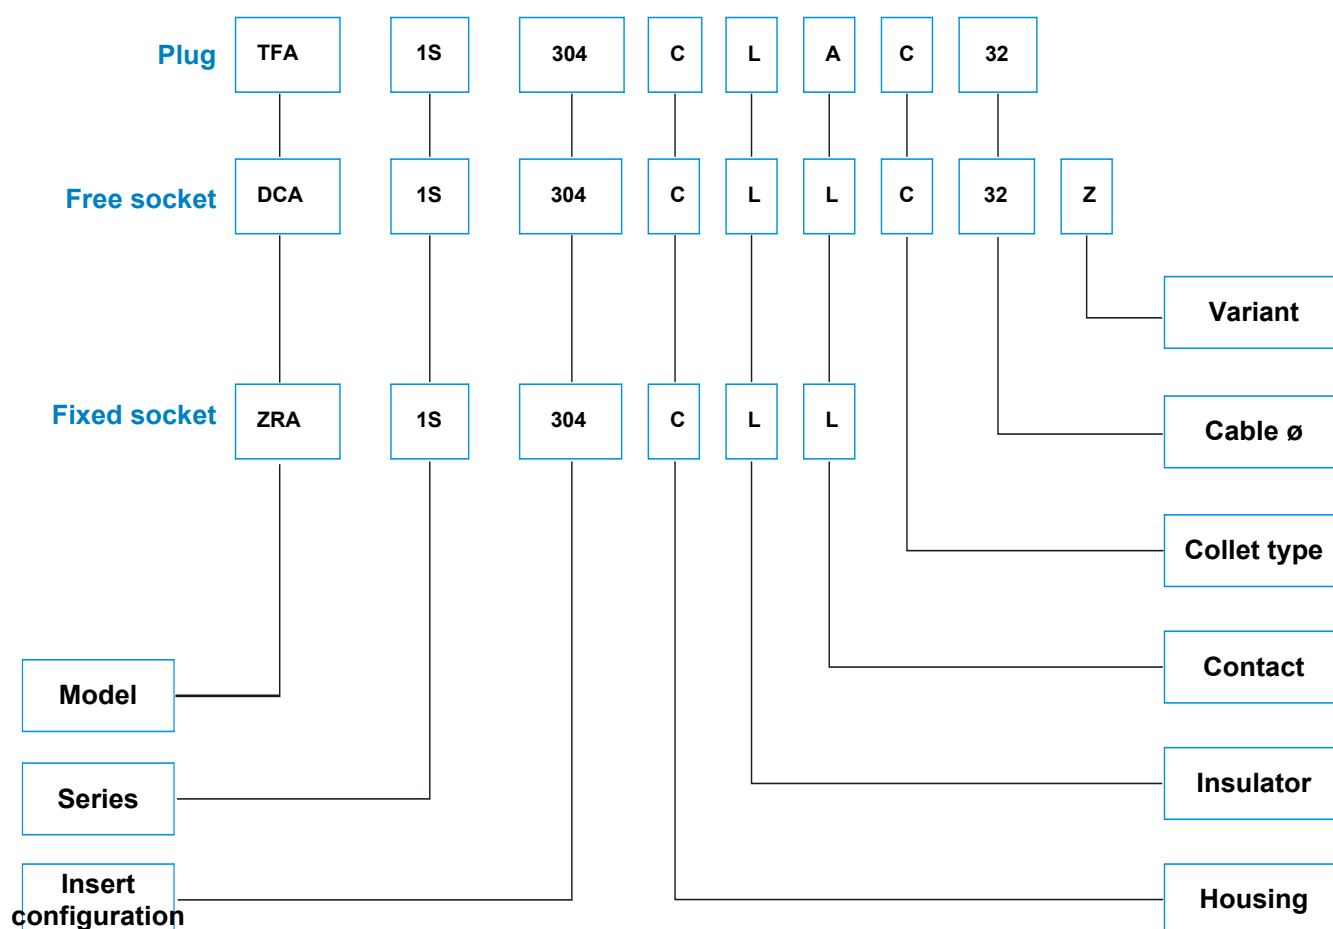

S series connectors have main features as follows:

- security of the Push-Pull self-latching system
- multipole types 2 to 6 contacts
- solder contacts
- high packing density for space savings
- polarisation by stepped insert (half-moon) fitted with male and female contacts
- 360°screening for full EMC shielding.

S Series Connectors Technical Characteristics:

- Endurance: > 5000 cycles
- Humidity: up to 95% at 60° C
- Temperature range: - 45° C, + 125° C
- Resistance to vibrations: 10-2000 Hz, 15g
- Shock resistance: 100 g, 6 ms
- Salt spray corrosion test: > 48h
- Protection index (mated): IP 50

S Series Part Numbering System:

part number example

straight plug with cable collet:

TFA.1S.304.CLAC32 = straight plug with cable collet, 1S series, multipole type with 4 contacts, outer shell in chrome-plated brass, PPS insulator, 2 male and 2 female solder contacts, C type collet for a 3.2 mm diameter cable.

Free socket:

DCA.1S.304.CLLC32Z = free socket, with cable collet, 1S series, multipole type with 4 contacts, outer shell in chrome-plated brass, PPS insulator, 2 female and 2 male solder contacts, C type collet for a 3.2 mm diameter cable and nut for fitting a bend relief.

fixed socket:

ZRA.1S.304.CLL = fixed socket, nut fixing, 1S series, multipole type with 4 contacts, outer shell in chrome-plated brass, PPS insulator, 2 female and 2 male solder contacts.

Metal Housing Models

TFA Straight plug, cable collet

Reference		Dimensions (mm)			
Series	Model	A	L	M	S2
0S	TFA	8.8	34.5	24.5	6.5

Note:

Brass

Connectors are mostly brass case, which can meet most military or civil application requirements. The white surface of brass shell has nickel-chromium protective layer, which has remarkable effect in resisting industrial waste, salt spray and most corrosives.

In addition, we also have nickel plating, nickel-gold plating, nickel-black chromium plating and other options for application in specific environments of the anti-corrosion coatings.

Aluminium alloy

In the aviation, aerospace industry, portable mobile devices and so on. It is suitable for the connector with aluminium alloy shell.

In addition to its high mechanical lightness and excellent corrosion resistance, the surface of aluminium alloys can be protected by anodic plating, with a variety of colors to choose from.

Stainless steel

For the use of harsh environment, the surface coating is easy to be damaged. We recommend the use of stainless steel materials. AISI304 stainless steel and AISI316L stainless steel are usually used.

AISI304 stainless steel is recommended for special fields such as nuclear industry. It can resist radiation and nitric acid corrosion.

AISI316L stainless steel is recommended for medical and shipping industries. It has no surface treatment and strong corrosion resistance.

L	PPS	Solder or print	

»»» Contacts (S series)

Soldering characteristics

- no need to order specific tools, a simple soldering iron is sufficient
- ideal for very small and fragile conductors
- contacts with solder cups to allow the solder to flow

Plug assembly instructions for S series

1. The cable is passed through the bend relief ① in sequence, the collet nut ②, the collet ③, the split centre-pieces ④, and soldered to the insulator with contacts ⑤ in order.
2. Attach the split centre-pieces ④ to the insulator with contacts ⑤, noting that the projection of the split centre-pieces ④ corresponds to the notch of the insulator with contacts ⑤, pushing the the collet ③ to the appropriate position of the cable.
3. The assembled cable the collet ③, the the split centre-pieces ④, and insulator with contacts ⑤ are pushed into the housing subassy ⑥.
4. Screw the collet nut ② into housing subassy ⑥.

Panel cut-out: (S series)
